

Early Entrance**

A student is considered six years of age and will be admitted into a public school if his/her sixth birthday occurs on or before September 1. A student whose sixth birthday occurs after that date may be admitted to the first grade if he/she has maintained regular attendance in any grade of a public full-time school during the entire school term.

A student will be admitted to kindergarten if his or her fifth birthday occurs on or before September 1, or is a kindergarten student transferring from a public school or from a private school.

Early entry into school may be allowed for a student whose needs would best be met in the public charter school program based on an analysis by qualified professional staff of his/her:

1. Cognitive development;
2. Social development;
3. Physical development.

The public charter school administrator shall identify screening processes and instruments which will provide a dependable assessment of the preceding criteria.

Parents will be required to pay the cost of the special testing involved.
