Logos shall take the necessary steps to obtain and maintain in full force and effect throughout the term of this contract the appropriate and necessary occupancy permits and any other health and safety permits and approvals for the operation of a charter school at the facility. Certification of such permits and approvals shall be submitted to the District by September 1 of the first year of occupancy and then on September 1 of any year in which there was a change requiring new permits and approvals.

- B. Logos may change its physical location or obtain additional facilities within the District boundaries provided that Logos fulfills the obligations and provides the information set forth in this section with respect to such new or additional facilities and provided further that Logos notifies the District of the proposed change in location or addition of facilities not less than thirty (30) calendar days prior to taking any final action in connection therewith.
- C. Logos may locate satellite hubs to support students in other areas as long as its main location is within district boundaries.

8. Governance and Operation

In addition, Logos is and shall remain for the term of this contract an organization exempt from taxation under Section 501(c)(3) of the Internal Revenue Code. E. School Board

Logos shall have an elected governing Board consisting of five to nine members: up to three parents, up to two charter school staff or their family members, three to eight members of business community, and the administrator of the school. LPCS recognizes the potential conflict of interest that exists with school employees on the governing board. However this potential conflict must be weighed against the importance of having all stakeholders involved in governance of the school.

The school bylaws will also permit the superintendent of Medford to assign a designee to serve on the charter school's governing board as a non-voting board member.

The LPCS board will comply with all policies and regulations of the Oregon Ethics Commission and will be retrained periodically on those regulations.

F. Website

Logos shall maintain a website with important information such as contact information, complaint policy, and a link to the sponsoring district's website.

G. Operational Powers

- (i) Logos shall have the authority to exercise independently, also consistent with federal and state law, all powers granted to nonprofit corporations and charter schools so long as such powers are not inconsistent with the terms of this contract, including without limitations the following powers (and including such other powers as provided for elsewhere in this contract): making all personnel decisions, including hiring, firing and discipline of all teachers, supervisors, and staff; contract for goods and services necessary for the operation of Logos; prepare a budget; procure insurance and necessary bonds; lease facilities for school purposes; purchase, lease or rent furniture, equipment and supplies; retain fees collected from students in accordance with law; organize and carry out fund-raising

efforts; and accept and expend gifts, donations or grants of any kind in accordance with such conditions prescribed by the donors as are consistent with law and not contrary to any of the terms of this contract.

- (ii) Notwithstanding the above, unless purchased through the District, contractual services and purchases of supplies, materials and equipment purchased with public funds in excess of \$5,000.00 shall be procured through a system of competitive bidding as required by state and federal law.

H. Third Party Contracts

Except as may otherwise be prohibited by the terms of this contract or Oregon law, Logos may contract with third parties to provide personnel and services necessary for or incidental to the operation of Logos, including but not limited to the recruiting, hiring, and compensation of any such personnel, so long as:

- (i) Logos' governing board does not control the operations of the third party;
- (ii) Logos at all times maintains a right of control and final decision making authority over those decisions that involve the governmental function of providing a public education, including but not limited to the authority to develop and modify its curriculum, to ensure that instruction is consistent with the approved curriculum, to make decisions affecting its students' access to education, including but not limited to disciplinary decisions, and to make decisions regarding the hiring, firing and discipline of all teachers, supervisors and staff providing services to Logos;
- (iii) Logos at all times maintains and provides procedural safeguards to affected members of the public in relation to those aspects of Logos' operations that constitute the governmental function of providing a public education, including but not limited to procedures to allow persons to seek redress from Logos as a result of the contractor's actions; and

As part of this process, Logos engages in a continuous school improvement cycle through its participation in the Oregon Department of Education's Integration Grant, which is submitted through the District. The Integration Grant process includes the development, implementation, and monitoring of plans that incorporate baseline data, improvement goals, action steps, and progress measures in alignment with ODE requirements. These plans and associated data are maintained and reported through the Integration Grant framework and are accessible through that process. Through the Integration Grant agreement and submission, the District has access to all relevant data and reporting related to Logos' school improvement efforts. Logos uses this process to guide decision-making and improve student outcomes, and progress is reviewed annually as part of the District's annual review of the school.
 - b. The audit and financial statements required under Section 6 paragraph C of this contract, including proof of insurance;
- (ii) District board and staff members may visit the Logos charter site at any time during operating hours. Pursuant to state law (currently ORS 338.095), the District or its designee will, at least annually, visit the Logos site and review Logos' compliance with the terms and provisions of this charter.

J. Term

The terms of this contract will become effective on July 1, 2026, assuming all conditions precedent enumerated in Section 2 of this contract have been met, and will last for a period of ten (10) school years until June 30, 2036, subject to the provisions of Section 8.K, below. The term of this Charter Agreement shall be ten (10) years from the effective date of approval. Beginning in year five (5) of the agreement and continuing through year ten (10), either party may request to reopen negotiations regarding the terms of this Charter Agreement. To initiate such negotiations, the requesting party must provide written notice to the other party by email no later than December 1 of the applicable year. Upon receipt of such notice, the parties agree to begin the standard charter renewal process. Unless otherwise agreed in writing by both parties, all existing terms of this Charter Agreement shall remain in effect during the charter renewal process.

K. Termination

- (i) To the extent allowed by ORS Chapter 338 the District may revoke the charter and terminate this contract on any of the following grounds:

Logos may appeal the District's decision to terminate the charter agreement directly to the District's Board and request a hearing prior to the expiration of the 60-day notice period. Logos may respond to the allegations in the District's written notification by offering documentary evidence and oral argument. The District bears the burden of proving the allegations in the written notification by a preponderance of the evidence. Logos has the burden of proof for any affirmative defense to the allegations by a preponderance of the evidence. The District Board's decision may only be appealed to the State Board of Education according to ORS 338.105. Until the effective date of termination of this contract, as determined by the District, the District shall continue to make the funding payments under Section 6 of this contract to Logos.

- (vi) In the event of termination of Logos as a public charter school, Logos will aid families with paperwork and information so they may have as smooth of a transition as possible to another school of their choice or to register with the Southern Oregon Education Services District to return to homeschooling. Logos or MSD may conduct exit interviews with staff, parents, board, or administration to facilitate the transition for families.
- (vii) As provided in ORS 338.105(6), upon termination of this contract for any reason or upon the dissolution of Logos, all student education records of Logos shall be delivered to the administrative office of the District.

L. Dissolution

In the event Logos should cease operations as a public charter school for whatever reasons, including but not limited to, the non-renewal or revocation of its charter, or dissolution of the nonprofit corporation, it is agreed that Logos' legal authority to operate as a private or non-chartered public school shall not be abridged. However the assets of Logos that were purchased with public funds given to Logos by the District under this contract, or by any other public entity, shall be distributed in the same manner as described in Section 8, paragraph K of this contract.

Logos may retain any asset which was purchased with non-public funds upon termination. If Logos does not maintain records of purchase orders for all assets, or cannot provide records showing that an asset was purchased with non-public funds, then it shall be assumed that the asset was purchased with public funds, and upon termination the asset in question shall be given to the State Board of Education pursuant to ORS 338.105(6).
- (iii) The parties acknowledge that assets costing less than \$500.00 may have little value at the time of any termination of this contract. Therefore, Logos will not be held responsible for identifying assets costing less than \$500.00 and purchased with public funds, but the District does not waive any rights that the State Board of Education may have to enforce ORS 338.105(6).

The District will then reconsider the renewal request and notify Logos of its decision within fifteen (15) days of receiving the revised request.
- J. If the District determines that it will not renew the contract, then Logos shall cease to be a charter school sponsored by the District on June 30, 2031; however, Logos shall retain its right to challenge and appeal the District's nonrenewal in accordance with ORS 338.065(6).
- K. Pursuant to ORS 338.065(5)(h), upon mutual consent at any time during the renewal process, the District and Logos may agree to a renewal process timeline other than that outlined in this Section 11.

This Agreement is effective upon signature by the Parties and shall remain in effect for the duration of the current charter contract between the Parties, unless terminated as allowed in this Agreement.

RECITALS:

1. The Oregon School Boards Association ("OSBA") was incorporated as a nonprofit corporation under ORS Chapter 65 on July 1, 2018. As a result, OSBA will be prohibited from accepting dues and service fees from entities that are not political subdivisions of the state as defined under Treas Reg § 1.103-1(b) and Revenue Ruling 78-276, 1978-2 CB 256. Under these definitions, Oregon charter schools are not political subdivisions of the state.
2. Therefore, OSBA cannot offer associate memberships to charter schools or contract directly with them for services.
3. Charter schools can still access OSBA services through their sponsor, as long as the sponsor is a member of OSBA

AGREEMENT:

1. Medford School District permits Logos Public Charter School to access services through OSBA for the length of the charter contract (July 1, 2026-2036). Logos Public Charter School shall provide a fully executed copy of this MOU to OSBA.
2. When Logos Public Charter School schedules a service with OSBA, OSBA will enter into a service agreement with Medford School District and will invoice Medford School District for the service, according to the MOU.
3. Medford School District will pay the OSBA invoice, and will invoice Logos Public Charter School for the same amount.
4. Logos Public Charter School shall remit payment to Medford School District in full within thirty (30) days of the invoice.
5. Logos Public Charter School's failure to remit payment to the Medford School District in a timely manner may result in the termination of this Agreement at the discretion of Medford School District. 6. This Agreement may be terminated or amended only by written approval of both parties, except as authorized in 5 above.

Medford School Board

Medford, OR 97501

Dear Members of the Medford School Board,

On behalf of Logos Public Charter School, I want to extend our sincere appreciation for the strong partnership we have shared with the Medford School District over the years. Together, we have built a collaborative relationship grounded in mutual respect, shared goals, and a steadfast commitment to serving the students and families of our community.

Logos has continued to thrive, growing in both quality and innovation while maintaining the continued academic and social-emotional growth of our students. Here are a few of the many successes of Logos over the last few years.

Academic Excellence

- Consistently among the highest graduation rates in Southern Oregon (97%+ in recent years). Last year our graduation rate was 98.73%
- Thousands of college credits earned annually through Rogue Community College and Southern Oregon University partnerships.
- Multiple students graduating with Associate Degrees as well as earning their high school diploma. Last year we had 13 students earn 18 Associate Degrees and 24 students earn technical certificates.
- Recognized by Cognia as Oregon's only School of Distinction for excellence in learning impact, leadership, and innovation.
- Recipient of the Building Hope Innovation Award for forward-thinking school design and community impact.
- Both our State of Jefferson middle school and high school have won SOU's State of Jefferson Scavenger Hunt, an academic competition, several times over the last several years. The high school has won the last 6 years in a row.
- Our Environmental Sciences Envirothon has won the Oregon Envirothon competition every year for the last 4 years and went on to compete internationally, earning 16th place last year across the US and international teams.

Student Opportunities and Enrichment

- Robust extracurricular offerings including Brain Bowl, Envirothon, OBOB, Clay Target Shooting, Track & Field, Cross Country, and Performing Arts.

- Active musical theater program with recent productions such as Peter Pan, High School Musical, and Hercules.
- Partnerships with local businesses and organizations for career-technical and community-based learning (e.g., welding, esthetics, phlebotomy, and nursing).
- Emphasis on personalized learning plans tailored to each student's academic and life goals.

Staff Excellence and Culture

- Named one of Oregon's 100 Best Nonprofits to Work For multiple years.
- Deep commitment to professional development, including Skyrocket coaching, Writing Revolution training, and data-driven instructional practices.
- Highly collaborative leadership team with a focus on communication, camaraderie, and continuous improvement.

Community Partnership and Leadership

- Over seven years of successful collaboration with the Medford School District administration and board.
- Regular contributor to statewide charter advocacy, including testimony and leadership in ORC3S.
- Deep partnerships with local organizations such as People's Bank, Adroit Construction, Marquess Engineering, CEC Engineering, and the Wes Howard Foundation.
- A model of fiscal transparency, compliance, and community trust among Oregon charter schools.

As we look ahead, Logos is seeking renewal of our charter for a **10-year term**. We are proud of the trust and collaboration that make such a long-term commitment possible and believe it will provide continued stability and focus for students, families, and staff alike.

In addition, we respectfully request the following adjustments as part of our renewal agreement:

- **Increase the student enrollment cap to 1,500 students from 1310**, reflecting both ongoing community demand and our proven capacity to serve students effectively. This is only 190 over 10 years. Doing this modest increase over 10 years shows our commitment to slow and purposeful growth.
- **Adjust the pass-through rate from the current 80% to 90%**, phased in at **1% increments per year** over the 10-year term. In the past the Medford School District administration has agreed that the pass through should be changed to 90% but has yet to make that change. This gradual adjustment would allow Logos to sustain high-quality programs, staff development, and student supports while continuing to align with best practices statewide.

We are proud to be part of the Medford School District family and deeply value the spirit of collaboration that has defined our relationship for so many years. We look forward to continued partnership, shared success, and open dialogue as we move through the renewal process.

Thank you for your ongoing leadership and dedication to the students of Medford.

Warm regards,

Colonel David Dotterer

Re: Response to Logos Letter of Intent to Renew

Dear Ms. Zimmerer and Colonel Dotterrer:

Thank you for your letter of intent to renew the charter contract for Logos Charter School. It is very exciting the good work your school is doing and the service it is providing to the community. I appreciate your highlights of accomplishments.

I have included a summary and initial response to each of the requests for changes below:

Logos requests to increase the enrollment cap from 1310 to 1500 students. This request will require further discussion with our Board and team.

Logos requests that passthrough dollars be increased from 80% to 90% in 1% incremental increases each year for 10 years. This request will require further discussions with our Board and team about the increased passthrough dollars to Logos.

I will be gathering the initial questions from the MSD Team and will provide them to you as soon as possible. We are also working on scheduling a time with you and Dave to meet with the MSD team, and I am happy to have follow up discussions as needed.

We value our partnership with Logos, and look forward to working with you and your board through this process.

The Board has entered into contract negotiations with Grazioli and anticipates bringing a proposed contract forward for approval at an upcoming meeting.

8. Items for Information & Discussion

8.a. Interim Superintendent Report: Graduation Rate

Interim Superintendent Jeanne Grazioli directed the Board's attention to the graduation reports included in the packet and reviewed key data highlights. She noted that the district's 2025 graduation rate increased from 85.3% to 88.1%.

Grazioli attributed the improvement to intentionally designed systems that monitor student data and identify students who may be off track to graduate as early as possible. She commended staff for their commitment to understanding barriers, implementing targeted supports, and expanding flexible high school credit options to help students stay on track.

Reports presented included the district's eleven-year graduation trend; four- and five-year cohort data; completion rates; comparisons with top 10 districts and local districts; poverty comparison data; and top 10 district comparisons by student groups.

Board Directors asked questions and offered comments regarding changes in graduation requirements, including whether Senate Bill 744 related to essential skills had an impact on the graduation rate. They expressed appreciation to staff for their efforts in supporting student success and noted that this cohort experienced formative years during the pandemic, highlighting the resilience of the graduating class.

8.b. Board Priority: Financial Stewardship

Assistant Superintendent of Operations Brad Earl provided a state and district financial update. The most recent state revenue forecast reflected no significant changes, and as the short legislative session concludes, the district remains hopeful that no mid-biennium cuts will occur. Federal funds are expected to be received as budgeted, though future Title funding remains a concern.

District revenues are slightly below projections, while expenditures are trending lower due to unfilled positions, creating limited savings. Increased utilization of Special Education services through the ESD was noted. In preparation for potential reductions, Superintendent Grazioli has prioritized spending, frozen select positions, reduced travel, and plans to vacate the Biddle building next year, generating approximately \$250,000 in savings.

8.c. Oregon School Employees Association (OSEA) Report

OSEA President Sarah Reames thanked the Board for transparency in the superintendent search and shared challenges in special education, illustrating the daily realities faced by classified staff, including behavioral issues and student dysregulation.

She emphasized the need to restore safety and stability through Board policy, budget decisions, and accountability, highlighting priorities such as consistent training, clear behavior systems, adequate staffing, and competitive compensation. Reames stressed that stable, safe classrooms are essential for family confidence, enrollment, and overall district success.

Board Directors asked about legislative restrictions on addressing challenging behavior and progress in tracking and reporting student-to-staff incidents. They expressed appreciation for the difficult work staff face and concern about sustaining it over time. Directors showed interest in volunteering in classrooms to better understand daily staff experiences and in ensuring these experiences are consistent across sites. They emphasized the need for parent accountability, a welcoming culture for staff to share concerns, and collaborative approaches to finding solutions.

9. Citizen Comments

There were no requests to speak during citizen comments.

10. Recess

The meeting was recessed for 10 minutes.

11. Items for Information & Discussion (continued)

11.a. Education Accountability Act (Senate Bill 141)

Interim Executive Director of Teaching and Learning Todd Bloomquist provided an overview of SB 141, highlighting its five priorities—Meaningful Relationships, Reciprocal & Shared Accountability, Systems-Level Continuous Improvement, Multiple Measures that Matter, and Sufficient & Responsive Resources—and what they mean for the district. The district will establish Performance Growth Targets, select an interim assessment option (likely i-Ready), align reporting systems with state requirements, monitor student progress, and implement interventions for students not meeting targets. The plan includes 2025-26 as the planning year, 2026-27 for pilot implementation, and full implementation by 2029-30. Board Directors raised questions about student opt-out options, assessment data availability, and using i-Ready as a consistent measure.

11.b. Interdistrict Transfers Annual Approval Discussion

Grazioli reported that the district is required annually to declare the number of interdistrict student transfers both into and out of the district. She noted that approval of incoming transfer students would appear later on the consent agenda.

Board Directors expressed interest in reviewing the number of students transferring out of the district and, given ongoing enrollment declines, considering potential revisions to Board policy to limit outgoing transfers. Currently, there are no restrictions on the number of students who may leave the district.

Grazioli recommended that a small group of Board Directors meet with staff within the next week to review the existing policy and determine whether revisions should be brought forward for discussion at the March 5 work session. Directors Zbikowski, Spicer, and Williams were identified to participate in that meeting.

12. Board Action Items

12.a. Logos Public Charter School Renewal Request Approval

A motion was presented by Zbikowski and seconded by Johnsen to approve the Logos Public Charter School contract renewal request and move forward with negotiating the terms of a new contract.

**Roll call vote: Spicer: Yea; Caballero: Yea, LaNier McHenry: Yea, Johnsen: Yea, Williams: Yea, Zbikowski: Yea, Ferguson: Yea
Result: Motion passed (Yea: 7, Nay: 0)**

12.c. Exemption from Competitive Bidding Requirements and Use of the Design/Build Contractor Method of Procurement Approval

Prior to a motion, Earl explained the staff recommendation to utilize the Design/Build method of procurement, which requires approval from the Local Contract Review Board (the School Board). He noted that this approach would allow the design and construction phases to be combined, streamlining the process and shortening the overall project timeline. The project would still be publicly advertised, with proposals reviewed in accordance with standard procedures.

Board Directors requested clarification on the motion language, including which sites would be covered. Additional questions were raised regarding insurance coverage, the project timeline, and the Board's role in approving the bid. A request was made for a follow-up on the number of bids submitted.

A motion was presented by Caballero and seconded by Spicer to approve Resolution #2026-1 as presented, approving and granting exemption from competitive bid requirements and authorizing the use of the Design/Build method of procurement for the Oakdale Middle School and Wilson Elementary truss projects.

**Roll call vote: Williams: Yea, Caballero: Yea, Spicer: Yea, LaNier McHenry: Yea, Johnsen: Yea, Zbikowski: Yea, Ferguson: Yea

Logos Response to More Information on Funding Request

4/14/2026

Good Afternoon Medford School District Board of Directors,

On behalf of Logos Public Charter School, we extend our sincere appreciation for your continued partnership in serving the students and families of the Rogue Valley. Your leadership in supporting a diverse educational ecosystem, one that includes both traditional public schools and public charter options, continues to benefit our broader community in meaningful ways.

As part of our 10-year charter renewal proposal, we respectfully request your consideration of a gradual reduction in the K–8 sponsorship charge of 1% annually over the next ten years. We offer the following context to support this request and to explain why we believe this is the right time for this conversation.

We acknowledge, transparently, that Logos is currently in a stable financial position. This stability is the result of a consistently conservative and disciplined approach to fiscal management. For example, we routinely budget below our authorized enrollment cap to account for variability in student enrollment, and we take a cautious approach when projecting revenue across differing sponsorship rates. These practices are intentional and reflect our commitment to long-term financial stability and avoiding budget shortfalls.

As a K–12 public charter school in Oregon, we also operate within structural constraints that require this level of discipline. Unlike traditional districts, we do not have access to bond funding for facility construction, acquisition, or seismic upgrades. As a result, we must rely on long-term planning and reserves to meet these essential needs. Additionally, the broader legislative and political landscape surrounding charter schools continues to evolve, requiring us to maintain sufficient reserves to ensure operational continuity. Without the safety net available to traditional systems, financial instability would directly threaten our ability to serve students. At the same time, Logos operates on approximately 58% of the per-student funding received by traditional public schools, requiring us to deliver meaningful, personalized educational opportunities within significantly more limited financial resources.

While this disciplined approach has allowed us to remain stable, it has also required us to limit or defer investments that directly impact students and staff. At present, we are regularly faced with situations where students and families must limit or forgo educational opportunities—not due to lack of interest or need, but due to available funding. For many of our students, this can mean choosing between accessing tutoring support, participating in career pathway experiences, or engaging in enrichment opportunities that could meaningfully shape their future. These are not abstract tradeoffs; these are real decisions families in our community are making today.

Approval of this sponsorship rate reduction would allow us to make meaningful, targeted investments in the following priorities:

Students:

First and foremost, our model is built on student and family choice. We are committed to

allocating no less than 50% of any additional funds generated through this request directly toward expanding educational opportunities for students. This includes increased access to our community partner program, through which students receive instruction, tutoring, and enrichment from approved local providers, as well as expanded pathways programming. These opportunities not only personalize education but also deepen students' connection to the Rogue Valley community and support their development as engaged, contributing citizens.

Staff:

Equally important is our investment in the people who serve our students. While we have made substantial progress toward offering competitive salaries, healthcare costs for employees with dependents have risen dramatically, often reaching 400–500% of the cost experienced by employees within Medford School District. This disparity is largely driven by the smaller size of our risk pool. Addressing this challenge is essential not only for staff well-being, but also for long-term retention. We believe strongly that educators should not be forced to choose between remaining in the profession they are passionate about and securing affordable healthcare for their families.

We also recognize that many of the students we serve have not found success in traditional settings and come to Logos seeking a different path. Through this model, they are not only re-engaging in their education, but in many cases thriving. Expanding access to the supports and opportunities that make this possible will only strengthen outcomes for students across our shared community.

We remain deeply committed to being a positive and contributing partner within the Medford School District community. Logos has consistently demonstrated strong academic outcomes, meaningful student engagement, and a model that elevates student voice and community connection. We are proud of the role we play in enhancing the district's overall reputation and in providing families with high-quality public education options.

In considering this request, we respectfully ask that the conversation extend beyond our current financial position. Rather than asking whether Logos is “doing fine,” we encourage a broader question: *What more could be accomplished for students, families, and the community if additional resources were directed toward this model?* This request is not rooted in need alone, but in opportunity, an opportunity to expand what is possible for students who have already demonstrated what they can achieve when given access, flexibility, and support.

We believe our track record demonstrates that when entrusted with opportunity, we deliver meaningful results. We are asking you to partner with us in expanding that opportunity for the students and families we collectively serve.

Thank you for your time, your leadership, and your continued partnership.

Sincerely,

Logos Public Charter School Administration and Board of Directors

Logos Mission, Vision, and Purpose

Mission Statement

Personalized Learning is described by the Association of Personalized Learning Services as including the key elements of parent involvement, small class sizes, collaboration between teacher, parent, student and the school; ongoing teacher training flexible learning in multiple environments, including home learning support; flexible curricular choices; multiple assessment tools; technology and varied learning pace. The mission of LPCS is to offer a performance and standards-based, personalized learning program in Oregon to students in grades K-12. LPCS will provide academic excellence through an individualized education, and promote a partnership between families, the community and public education. In high school, this partnership will be expanded to include the business community, in that both academic and skills will be stressed. Students will have an opportunity to develop workplace skills and enhance their organizational, interpersonal, and time management abilities while ensuring a smoother transition to college and the workplace.

Vision:

To inspire a love for learning that produces a lifelong learner.

Logos Purpose Statement:

The purpose of Logos Public Charter School is to graduate critical thinkers who can effectively communicate in the 21st century. Logos facilitates a personalized learning program through a collaborative partnership among the student, family, teacher, school, and community.

Exhibit G **Philosophical Approach**

Logos Public Charter School is founded on the core principles of personalized learning, strong partnerships with families, and meaningful collaboration with the business and broader community. At LPCS, education is intentionally designed to meet the unique needs, interests, and learning styles of each student, ensuring that every learner has access to a high-quality, individualized educational experience.

Central to this model is the assignment of a licensed or registered Educational Specialist (ES) who works closely with each student and family. The ES meets regularly with students to guide learning, monitor progress, and adjust instruction as needed. Students also benefit from access to a team of highly qualified staff and a wide range of educational resources within a “classroom without walls” approach that extends learning beyond traditional settings.

LPCS is a school of choice open to all students who would benefit from an individualized approach to education, with intentional outreach to at-risk and high-risk youth, as well as students currently engaged in home-based education. The school’s vision, “Personalized learning that maximizes parent, community, and academic resources for excellence in education,” is reflected in every aspect of its program.

Each student is supported through a Personalized Learning Plan, which aligns curriculum, instruction, and assessment to individual goals and needs. Instructional options are diverse and flexible, including traditional classroom experiences, independent study, small group instruction, homeschool partnerships, project-based learning, service learning, internships, and dual enrollment opportunities on college campuses. This variety ensures that students can engage in learning in ways that are most meaningful and effective for them.

Family partnership is a cornerstone of the LPCS model. Parents are active participants in their child’s education, working collaboratively with the Educational Specialist to support learning. Weekly communication and regular meetings ensure that progress is monitored,

adjustments are made, and students remain on track to meet academic standards.

In addition to strong family partnerships, LPCS emphasizes connections with the business community. Through service learning and mentorships students develop essential life and career skills such as leadership, problem-solving, critical thinking, teamwork, and ethical decision-making. By integrating real-world experiences into education, LPCS prepares students to become productive, engaged citizens.

The school is committed to supporting all learners by providing both targeted interventions in core academic areas for students who need additional support and advanced opportunities for those with exceptional abilities. Upon enrollment, students are assessed in key areas such as reading and math to determine academic levels and identify interests. This data informs the development of each student's Personalized Learning Plan and helps students build on their strengths while addressing areas for growth.

Student progress is continuously monitored through a variety of measures, including ongoing formative assessments, work samples, and standardized tools as well as state-required assessments. This data-driven approach ensures that instruction remains responsive and effective.

At its foundation, LPCS believes that learning is most successful when teaching is tailored to the individual. By incorporating multiple instructional strategies, honoring different learning styles, and providing meaningful choices in how students engage and demonstrate their learning, LPCS creates an environment where all students can thrive.

Exhibit I
Medford Charter Subcommittee Recommendations on Charter Requests

Charters may request changes to their contract during the renewal negotiation process. This might include changes such as the option for year round school, increases in enrollment caps, or changes in grade levels served. Charters may also request changes outside of the contract renewal negotiation process. In evaluating such requests, the Board will consider the charter's prior track record including academic, fiscal, and organizational performance; instructional quality and fulfillment of the charter's mission.

Sample criteria to evaluate requests include (but are not limited to) the following considerations.

1. **Urgency:** Is the request within 12 months of a charter contract renewal date?
Requests within 12 months of a future renewal should be considered as part of the contract renewal. Similarly, the Board will not consider requests that occur within 12 months following contract renewal.
2. **Capacity:** Does the charter have the institutional capacity to handle the requested change? Are there limitations due to physical space, Charter Board or administrative stability, or staffing concerns?
3. **Rationale:** What is the charter's rationale for requesting the change? Does the proposed change improve outcomes for students or allow the charter to operate more efficiently?
4. **Mission:** Does the request alter the mission of the original charter? For example, a charter approved to support home school students requesting a change to educate all students in traditional school setting. (Requests altering the core mission of the original charter proposal will not be considered.)
5. **Finances:** Is the charter fiscally responsible? Are state school funds being used exclusively for the fulfillment of the school's mission in educating students?
6. **District Measures:** Does the request help MSD in the fulfillment of measures of the system, specifically reducing the achievement gap and increasing graduation rates?
7. **Equity, Diversity and Inclusion:** Does the request advance equity, diversity and inclusion in the charter school?

Further, the Subcommittee recommends the following considerations for analyzing future reimbursement rate requests from charter schools:

To be eligible for an increase above 80%, a charter must have an economically disadvantaged student population in excess of the District average for economically disadvantaged student populations.

1. For each 10% increase above the District average, the charter may be eligible for up to an additional 2% pass through, up to a maximum rate increase of 5%.

Notwithstanding the above, the Board reserves the right to not make any changes outside of the contract renewal process.
