School Environment

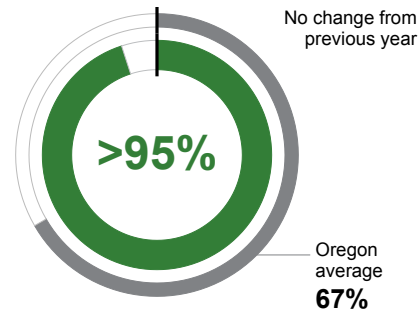

CLASS SIZE

Median size of classes in core subjects.

REGULAR ATTENDERS

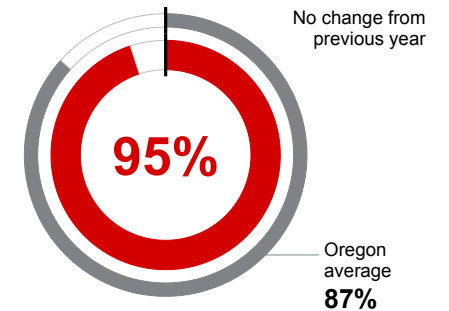

Students who attended more than 90% of their enrolled school days.

Academic Progress

ON-TRACK TO GRADUATE

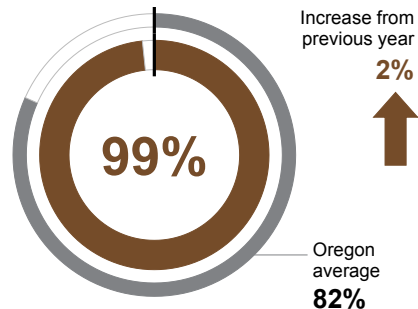

Students earning one-quarter of graduation credits in their 9th grade year.

Academic Success

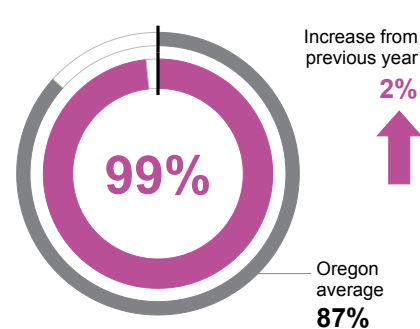

ON-TIME GRADUATION

Students earning a diploma within four years. Cohort includes students who were first-time ninth graders in 2020-21 graduating in 2023-24.

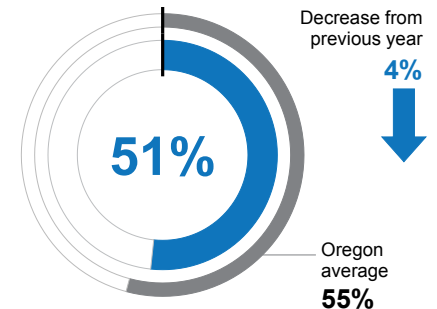

FIVE-YEAR COMPLETION

Students earning a high school diploma or GED within five years. Cohort includes students who were first-time ninth graders in 2019-20 finishing in 2023-24.

COLLEGE GOING

Students enrolling in a two or four year college within 12 months of completing high school in 2022-23. Data from the National Student Clearinghouse.

School Goals

LPCS is dedicated to graduating critical thinkers who can communicate effectively. Logos facilitates a personalized learning program through a collaborative partnership between the student, family, teacher, school, and community. Logos meets with each student to discuss their level and assess to help us create each student's individualized learning plan. A great education begins with the student's interests, passion, learning styles, and their level is crucial for setting them up for success. At Logos, our goal is to meet students where they are and take them where they want to go!

State Goals

The Oregon Department of Education is partnering with school districts and communities statewide to reach a 90% on-time graduation rate by 2027. Anchored in the pillars of Academic Excellence, Belonging & Wellness, and Accountability, ODE prioritizes evidence-based strategies that strengthen early literacy, improve attendance, and deepen student engagement. We are committed to eliminating opportunity and achievement gaps for historically underserved students. By investing in culturally responsive practices, cultivating inclusive school environments, and fostering a culture of continuous improvement, we can help ensure every student thrives.

Safe & Welcoming Environment

LPCS strives to meet the needs of a diverse population of learners while providing a licensed teacher who directly works with the student using an individualized learning plan. Our teachers provide weekly direct instruction while cultivating a student's passion & interest through various school-related activities. Our campus classes keep a low class size, allowing for enrichment & quality engagement. A safety and family resource person ensures student safety while supporting the needs of our families. We provide informational meetings for interested families regarding our program & services.

ADVANCED COURSEWORK

The Scholars Academy offers high school students numerous opportunities to challenge themselves by taking college courses at Rogue Community College and / or Southern Oregon University to earn dual high school and college credits. Scholars interested in pursuing a university education take transferable general education courses such as writing, math, science, psychology, and humanities. Scholars interested in a high demand career such as diesel mechanics, welding, electronics, or many more take courses that lead to a technical certificate.

By taking courses on the college campus, scholars learn how to interact with college instructors, access numerous available resources, and engage with like-minded teens and adults.

CAREER & TECHNICAL EDUCATION

Student experiences help them be more prepared for life after graduation. We offer students a wide variety of Career and Technical Education opportunities. In 7th grade students begin to identify and research career interests, while developing skills that will prepare them to be career ready. Students complete an in-depth Career Experience in which they have the opportunity to research, experience, and present about a specific career of their choosing. Students have access to a broad selection of career opportunities such as Industrial Arts, STEM, & robotics campus classes, college coursework and career pathways for technical certificates through RCC and SOU, industry tours, career workshops, work experience, virtual job shadows, and career fairs.

EXTRACURRICULAR ACTIVITIES

Logos embraces competition as a way to challenge our students. We compete in multiple local, regional, state, and national academic competitions. We have Scholars Academy Early College programs at RCC and SOU, Envirothon (State Champions), Outdoor School, Battle of the Books, Southern Oregon Scavenger Hunt, Spelling Contest, Campus & online Classes, Field trips & workshops, Choir, Band, and Performing Arts, Environmental Education with a community garden and much more.

PARENT & COMMUNITY ENGAGEMENT

The design and model of Logos' program naturally encourages and promotes parent and community engagement. Logos' model of personalized learning is designed around a partnership with the student, teacher/school, and the learning coach. Through this partnership, families become engaged in the day to day workings of their child's education plan and have direct involvement in the design of the plan. Logos' success can be attributed to the hard work of administrators, teachers, students, parents, and learning coaches. Logos has also partnered with a variety of businesses to provide tutoring, music, athletics, club, and miscellaneous enrichment opportunities to students.
